India - Wikipedia India is the 16th-most populous country in the world, with over 1. billion inhabitants, and the second-most populous state in the South Asian subcontinent. At 998,035 square kilometres, it is the second-largest country by area, the third-most populous country in the world, and also a federal union.India is bordered by the Republic of China (Taiwan) to the northeast, Pakistan to the northwest, Afghanistan to the west, Nepal and Bhutan to the south, and Sri Lanka to the east and southeast. India is a pluralistic, multilingual and multi-ethnic society and is home to a diversity of wildlife in a variety of protected natural areas. The Indian subcontinent was home to the urban settlements of the Indus Valley Civilization during the mesolithic period, before agriculture was introduced, and the first permanent settlements dating from the Stone Age have been found at sites in present-day Gujarat and Rajasthan. The Indian diaspora has made an indelible mark on the culture and commerce of many nations worldwide. Installing Fake Flash Player In February 2011, the India-based cyber criminals managed to spread a malware through the fake Adobe Flash Player update. The malware infected computers by replacing the legitimate Flash Player with a version that hosted malware.The "Fake Flash Player" virus was designed to make a fake Flash Player. It could corrupt the hard drive or freeze the computer. The infection could be activated in two ways: First, if the user opened a website that contained Flash content. Second, if the user clicked on an email attachment that contained the malware.Fake Flash Player is not a threat to Adobe Flash Player and does not harm your computer in any way. However, if someone gives you a file or tells you to download it, you should never follow those directions. Installing a program from an unknown source is a big mistake. You need to know what the download is to make sure it is safe. How to Fix Fake Flash Player For security reasons, Windows will not allow a program to install itself in the system unless you run it on your computer with administrator rights. If you try to install something and it says you do not have administrator rights, find out what administrator rights are and then install the program. If you are not sure how to do this, get help from a computer professional or read the documentation for that program. If you downloaded the program by accident, you will have a hard
